

SAFA GÜR

Industrial Engineer | Project & Process Development

İstanbul, Türkiye
gursafa@gmail.com | +90 534 659 80 18
www.safagur.com

PROFILE SUMMARY

Results-oriented Industrial Engineer with experience in digital and AI-driven transformation projects. Specialized in process optimization, system integration, and user-centric innovation. Successfully bridged business and technical teams while leading initiatives that improved operational efficiency, customer experience, and data-driven decision-making. Passionate about applying AI and automation to scale business impact and support strategic growth within global technology organizations.

EDUCATION

Istanbul Kültür University – B.Sc. in Industrial Engineering (50% Scholarship), 2019

Plevne Anatolian High School – Istanbul

EXPERIENCE

Freelance Consultant – E-Commerce & International Trade Projects

Istanbul & North America | Jul 2023 – Oct 2025

- Led digital market research, AI-based sales automation, and cross-border project planning.
- Implemented **AI-powered analytics and automation tools** (ChatGPT, Gemini, n8n) to improve customer engagement and workflow efficiency.
- Advised on process scalability, data privacy, and emerging AI solutions in e-commerce environments.

Samsung Electronics – Istanbul

CS Audit & Process Improvement – Senior Specialist | Jan 2021 – Jul 2023

- Directed digital and AI-driven transformation projects to enhance after-sales operations.
- Initiated Paperless CS Transformation, reducing manual workloads and improving data visibility.
- Coordinated AI-based analytics dashboards for cross-functional management decisions.
- Collaborated with IT, data, and operations teams to integrate intelligent automation into service processes.

- Designed KPIs and performance-monitoring frameworks aligned with corporate efficiency goals.
- Supported change-management and adoption training across departments during new system rollouts.
- Acted as liaison between technical teams and business stakeholders, ensuring delivery of scalable, compliant solutions.

Samsung Electronics – Istanbul

CS Systems Department – Specialist | Feb 2020 – Dec 2020

- Oversaw SAP/CRM testing and user-acceptance programs for digital service platforms.
- Managed requirement collection, test case design, and result documentation.
- Contributed to ongoing AI-tool evaluation and system-integration feasibility studies.

SELECTED PROJECTS

- **AI Automation Pilot (Freelance, 2024):** Designed and tested GPT-based internal tools for content generation and reporting.
- **Cross-Sale Optimization (Samsung, 2023):** Integrated after-service product recommendation systems.
- **Paperless CS Transformation (Samsung, 2022):** Achieved full digitalization of service workflows, improving operational efficiency.
- **3D Bin Packing Optimization (Graduation Project, 2019):** Developed an optimization algorithm using Mixed Integer Programming (GAMS).

CERTIFICATIONS & TRAININGS

- Project Management Fundamentals – Udemy, 2024
- Lean Six Sigma Yellow Belt – Coursera, 2023
- Software Testing Foundations – LinkedIn Learning, 2024
- SQL for Data Analysis – Coursera, 2024

INTERNATIONAL EXPERIENCE

Market research and field observations within the e-commerce ecosystem in **Canada and the United States**.

VOLUNTEERING

TEGV – Education Volunteers Foundation of Türkiye | Mathematics Instructor (2018 – Present)

EDMER – Center for Ethical Values | Member (2015 – Present)

TECHNICAL SKILLS

Tools & Platforms: SAP, MS Project, Excel, SQL, Tableau, Postman, Power BI, Jira, TensorFlow (basic), OpenAI API, n8n Automation

Competencies: Project management, process automation, AI tool evaluation, user acceptance testing, data analysis

INTERESTS

Artificial intelligence, technological innovation, process automation, entrepreneurship, international trade
